Joe, thanks for the airfield info. I redid the radiation survey lines based on our conversation yesterday. Take a look at these and see if it was what we talked about. It about doubles the size of the previous area covered.

Subject: Bayou Corne conference call tomorrow morning

Hi Greg, sounds like the truck barbeque went well. If you've recovered and have time we have a conference line available for a call on the Corne Bayou site in the morning.

The call in number is (b) (5) and the code is (b) (5)

I suggest around 8:00 a.m. to give us some time to discuss the data you need and get the mission order ready for the

flight crew.

I am attaching another set of flight lines to look over. The one with the most flight lines is for a rad screening if it's decided to include that.

Please look these over to make sure we are covering the right areas. Also if we could find out what kind of flight restrictions are in place and who to contact about getting clearances that would be helpful.
